## Ramayana Water Park

Ramayana Water Park has launched into the top spot of Thailand's international quality attractions. This new national landmark is the biggest waterpark in the country built on a plot of land over 100 rai in size, delivers a massively exhilarating day out to remember. With lakes, islands and green hills in and around the park, Ramayana offers so much more than its 21 exquisitely designed waterslides, many of which are totally unique. Visitors will find two dedicated kids' zones, a record-breaking double wave pool, the Lazy River with waves, caves and water features, and activity and relaxation pools throughout its vast expanses of parkland. The water park itself has something for every taste, especially when zipping down the collection of slides which range from gentle fun to ultimate thrills.

Ramayana has been built to the strictest international standards of design and managed to the highest global quality standards too. It offers a Full Day experience, providing access to beautiful nature, clean air, and well maintained pools and rivers to be explored and enjoyed

Built on the site of a long forgotten city, guests can explore the remains of ancient buildings, walls, sculptures and mystical caves. A visit to the floating market, feeding real elephants or a walk along the riverbank let visitors explore a true sense of exotic and relaxing Thailand, with a constantly evolving program of entertainment that will appeal to families as well as adult visitors. Guests can enjoy dining in a restaurant with cuisine from around the world, retreating in a private cabana and being pampered with a massage by professional masseuses. In total, there are over 50 independent attractions to keep guests busy all day, all housed in an exciting – and most importantly, very safe environment.

## Rides

Ramayana Water Park offers 21 of the biggest, best, most exhilarating rides, including four that you will find nowhere else in Asia. All are constructed of the highest quality materials to the most exacting internationally-approved safety standards, all are watched over by 350 highly trained operatives and more than 100 certificated life guards. Our premium water slides are all made by White Water West in Canada, the world's leading manufacturer and the water we use throughout the park is sourced from our own wells – pure, crystal-clear and safe enough to drink

- **Aqualoop**

Like a Formula One driver, riders will experience the pull forces of gravity as they make a 360-degree loop.

- **Freefall**

After the floor disappears, riders will feel the thrills of falling freely – almost like an astronaut – and then produce these mega splashes as they will safely arrive in the shutoff lane.

# ramayana water park

- **Dueling Aqua-Coasters**

Unique are the two Dueling Aqua-Coasters. Riders in their double tubes go up and down and around on a 400-meter ride, hoisted high by water jets. They can battle with friends in their tube in a race to the end...great fun in one of the longest rides in the world!

- **Python & Aquaconda**

Up to 4 persons in rafts, which are delivered to the start by a conveyor system, get shaken and bounced around up to 6m high; the adrenaline rush knows no equal! This ride is absolutely unique, one of the longest ride in Asia and cannot be found anywhere else in Thailand.

# ramayana water park

- **Boomerango**

Where a two-person tube is being launched up the almost-vertical wall before gravity drags the riders back into the safety of the landing pool. Screams are guaranteed!

- **Mat Racer**

Riders pick a mat, choose a 1 of 4 lanes and challenge your friends in a head down race.

# ramayana water park

- **Serpentine & Spiral**

Serpentine is another great option to get used to Ramayana's slide adventures. Half of the slide is open, half of it is closed, and riders pick up slightly more speed and will thus produce more splashes when ending their journey in the pool on their tubes. The Spiral is the best ride to start with, either in a single or double tube. Most of the slide is closed, and some beams of light will make the journey very special before arriving gently in the landing pool.

- **River Slide**

The River Slide is another very unique feature of Ramayana Water Park, which does not exist anywhere else: riders make their turns on single or double tubes, before their descent ends in the lazy wavy river, where the journey will be continued with a half hour exploration ride with waves, geysers, waterfalls and bubbles.

## Kids Zones

Ramayana Water Park offers an amazing day for children, who not only can enjoy the wave pools, relaxation and activity pools, the Lazy Wavy River ride, and explore secret caves on the island, but they have the choice between 2 dedicated and uniquely designed kid's areas. These attractions provide all day fun under professional supervision and to highest safety standards.

- **Aqua Play**

Aqua Play holds several slides perfectly designed for kids (3-14 years), as well as other fun equipment that will entertain all day long – all properly and carefully supervised by specially trained personnel.

- **Aqua Splash**

Aqua Splash is a special water spray and splash area for the smaller children. This feature has been exclusively designed for Ramayana Water Park, and the variation of water levels and very special soft flooring will provide different experiences for all ages.

## Attractions

We employ nearly 350 highly trained personnel, including over 100 lifeguards, all friendly, helpful and committed to your enjoyment and safety.

- **Double Wave Pool**

Washing on to a 150m beach, our Double Wave Pool is probably the biggest around. Half of the pool contains stormy waves to bravely battle, the other side rocking you gentler in your tubes! Between the two you will find our impressive entertainment stage.

- **Lazy Wavy River**

Take a seat in a single or double tube or just swim and float down 600m of the Lazy Wavy River, experience waves to shake you, bubble areas, waterfalls and geysers to splash and soak you. Along the way, admire and explore the ruins of the ancient city, and be captivated by the mystical sculptures from the long-forgotten past in the Grotto cave – a real highlight!

# ramayana water park

- **Relax Pool**

Relax or gently swim whilst enjoying the invigorating bubbles in the Relax Pool. Sit in the water and enjoy a refreshing drink at our Pool Bar, an integral feature of the pool.

- **Activity Pool**

Larger than an Olympic size swimming pool, our Activity Pool is a source of fun all day long, with water volleyball, swimming lessons, water aerobics and lots more on offer. Or, just relax and enjoy the Jacuzzi bubbles at both ends.

- **River Walk**

The River walk is not to be missed; a gentle stroll along the banks of the river, within the sights and sounds of the natural tropical rainforest, unveils the secrets of Asia at its best. Along the way, experience traditional Thai culture at the Floating Market on the shore. Enjoy the fresh fruit, juices and typical Thai snacks served directly to you from one of the market's long tail boats.

- **Floating Market**

Experience traditional Thai's culture at the floating market on the river shore. Enjoy the fresh fruit, juices and typical Thai snacks served directly to you from one of the market's long tail boats.
